Limelight

RunHealthy Assessment™

Our RunHealthy Assessment™ is the safety net your transformation programme needs in order to deliver safely and successfully. Built upon our trademark delivery methodology, our team ensure your programme is on the road to success. The right road.

Utilising our unique delivery framework, which operates in conjunction with SAP activate, a RunHealthy Assessment™ provides a robust 360 degree review of your programme, customised to the lens you are most concerned about.

Our team aim to spend approximately a month observing, assessing and reviewing your programme. The goal is to find weaknesses, before it is too late.

The review is dynamicly scheduled and adjusted, depending on your current programme delivery phase. This means that wherever you are in your programme delivery it will be 100% relelvant and provide instant value, at both practitioner and board level.

Checks and balances are critical to the success of a programme. You need to know what 'right' looks like...

PAUSE

The Problem

Complexity

Business transformation programmes can be highly complex to execute, and often the many moving parts prevents leaders from spotting troublesome areas before it is too late.

Impartiality

We are firm believers that no-one should mark their own homework. Having a third party expert review provides piece of mind and removes unintensional bias.

One size audit

A standard audit from a.n.other consultancy will not give enough value for money. You need a fully tailored healthcheck based on your programme status and scope.

Timescales

There is no room for an audit to take a long period of time. You need reassurance, and quickly, especially if you are tracking towards a major programme gate.

> Making mistakes on a complex programme has the potential to cripple the business case and cost millions.

ASSESS

Limelight

The Process

Scope

As part of an engagement phase, the scope is confirmed. The Limelight team actively listen to the concerns of the Executive and, utilising our delivery expertise, propose the scorecard areas we should review.

Pre-Read

Prior to any engagement the Limelight team will request a key set of documents relevant to the engagement. These will be digested and reviewed prior to any onsite work.

Knowledge Acquisition

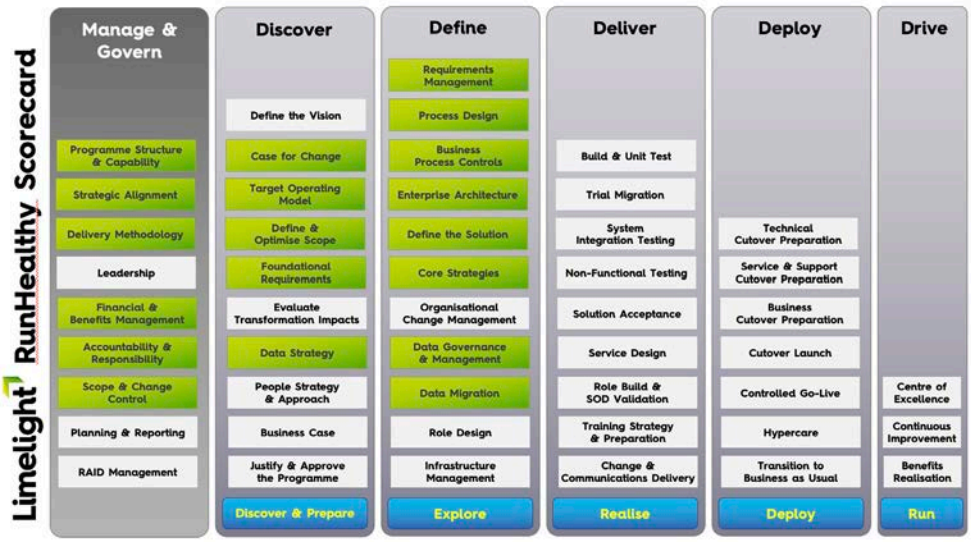
The core Limelight team (typically 2/3 FTE's) will set up structured interviews and workshops with key stakeholders, business users and executives.

Assessment

Using the Limelight framework as a guide, the team RAG each of the areas of the scorecard they feel is a concern. Behind the dashboard is a comprehensive explaination as to the determination.

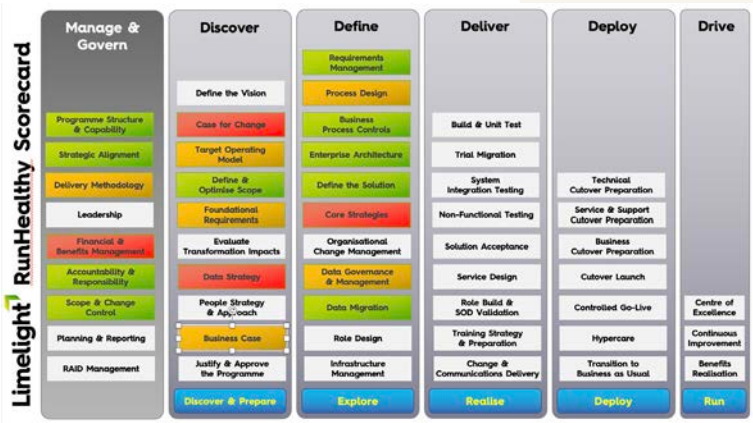
Advice and Guidance

As part of the outcome a full action list is provided, but along the way any useful hints tips and advice are also shared with the programme team to assist and drive to success.



THRIVE

The Outcome



Scorecard Report

The RunHealthy scorecard is the perfect high level RAG summary and tracking sheet for the board room. Simple to understand, yet with incredible depth and breadth, it is a powerful asset to confirm your programme.

Detailed Report

Behind the RunHealthy scorecard sits the detail. As part of our engagement a highly detailed Word document is produced. This references the sources and the reasons for the particular RAG status.

Actions and Next Steps

A significant section of the detailed report looks at the 'what next' question. For every section improvements and recommendations are suggested. These are based on previous transformation programmes and industry best practice.

Limelight

Benefits

Strength and Depth

Covering everything from programme management to solution architecture and beyond, the team at Limelight have strength and depth beyond any other assurance partner.

Experienced Based Insight

At Limelight every member of the team has come from grass roots. Everyone has worked on major programmes and the insight offered comes from countless years or experience, not theory..

Board Ready

Our scorecard report is board friendly and can be presented with no prior knowledge or understanding. In addition, they are typically used to show improvements made to the programme

Actionable Insight

The advice offered in the detailed report always meets 3 critical criteria. It is realistic and relevant, achievable, and actionable in both the short and long term.

Confidence in Delivery

After a RunHealthy Assessment™ concludes, executive teams have confidence in their programme moving forward.

Monitorable Progress

Utilising the RunHealthy scorecard, programme and executive teams can easily ascertain progress and traction to 'return to green'.

About Limelight

Our mission is to support businesses and their people through the entire business transformation journey. We strive to provide exceptional value and deliver long lasting positive change, enabling businesses to flourish.

Limelight are a multi award winning consultancy specialising in business transformation using SAP technology as a foundation. Operating at the intersection of the systems integrator and the client, Limelight lead transformation programmes, enabling all parties to operate at their true potential. The result is a safe, effective, timely, often cheaper business transformation.

With over 100 years hands-on delivery experience in our executive team alone, we have been fortunate to work with some amazing companies and even more incredible people. Our unique delivery, underpinned by accelerators and a complementary methodology, safeguards your SAP transformation and simplifies even the most difficult implementation.

We deliver career defining programmes, allowing senior executives to sleep easy. It is true peace of mind delivery.

Our Other Accelerators

RunFast Launchpad

Start your transformation programme with confidence. Define the vision, document the business case and set up the programme for success.

RunFast Transformation

Full ongoing management of your transformation programme. From launch through to benefit delivery using our best practice frameworks.

RunCentre Setup

Capability assessment and formation of a 'Centre of Excellence' with new structures, tooling and roles to support your new business model.

RunBetter Processes

Continual improvement framework for making incremental innovation as well as significant future changes to business processes.

Our accelerators give us unparalleled advantage in delivering transformation programmes.

GIVING BACK

Our Why

Change the future

One of the most frustrating statistics in our indutry is the failure rate of complex transformation programmes. We are highly passionate about what we do and are on a quest to make that a thing of the past.

Change customers

Give customers the experience they deserve and enable them to take advantage of new technology simply and safely.

Our Giving Pledge

When Limelight formed, we decided to put giving at our core and commited fully to the United Nations Global Goals. As such, we work with a charity called Buy One Give One (B1G1). Through this charity, for every day of consulting we bill, we provide a month of education to a child in some of the world's poorest areas. Simple, but truly life-changing.

THE GLOBAL GOALS
For Sustainable Development

B1G1 BUSINESS FOR GOOD
